Privacy and Security

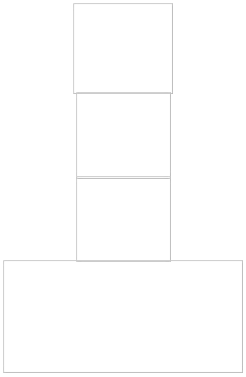
Version 17

Published 6/1/2024 by Charmaine Williams Last updated 4/24/2025 6:53 PM by Kristel Campitelli

---

Only when you sign in to Copilot with your Seneca ID do your prompts and responses remain secure.

Look for the 'Protected' badge to ensure enterprise data protection (EDP) applies to the chat.



Key Safeguards of Copilot with EDP:

- **Privacy Assurance:** Chats and data are protected under the same contractual terms and commitments as Seneca's other Microsoft 365 applications.
- **Protection of Seneca Data:** Prompts and responses are not available to OpenAI or used to train OpenAI ChatGPT models.

Got questions? Try Copilot first for instant answers! If you need more help or run into any issues, the ITS Service Desk is available 24/7.
