

# **GlowMate Chess: Illuminate Your Next Move**

## **Project Description:**

GlowMate is designed to help chess enthusiasts learn chess quickly with the help of visual cues. Leveraging Artificial Intelligence with the help of reed switches and a powerful microcontroller, the board is always monitoring the chess pieces and assists players with LED illuminated pathways.

## **Student Team:**

**Nicholas Miranda**  
**Parth Chhatbar**

## **Supervisor:**

**Mrs. Karen Craigs**
