

# CHANGES TO ORCAD – CREATE NEW PROJECT PROCEDURE

## INTRODUCTION

This document describes a change in the procedure for creating a new project in OrCAD. The Startup Page is no longer available, and the New Project pop-up menu must be accessed via the File Menu.

## CREATE NEW PROJECT INSTRUCTIONS

1. Launch OrCAD from Seneca's MyApps.

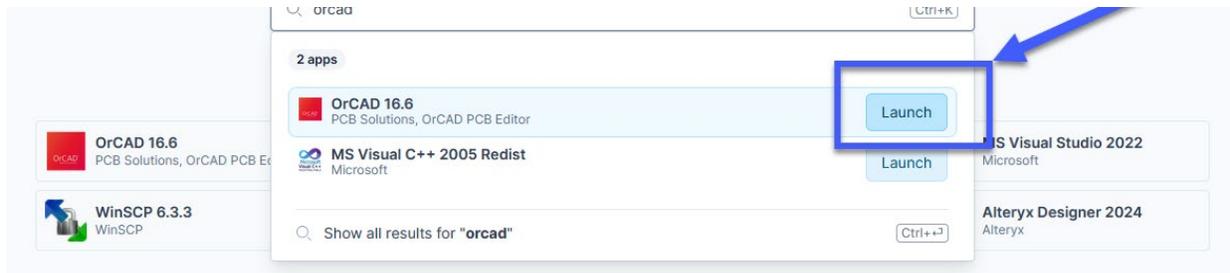

Figure 1: Launch OrCAD from Seneca's MyApps.

2. When OrCAD loads, double-click on "OrCAD Capture CIS Lite" to run the application.

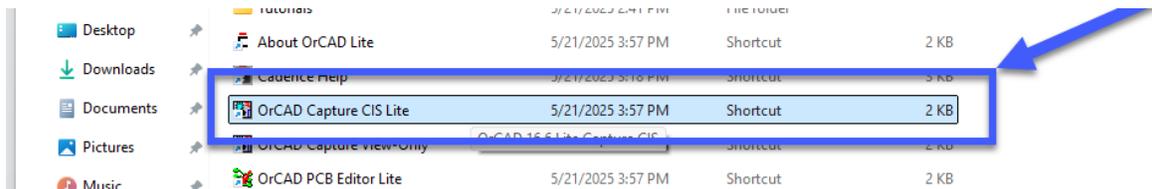

Figure 2: OrCAD files load.

3. When "OrCAD Capture CIS Lite" loads, it shows a blank interface.

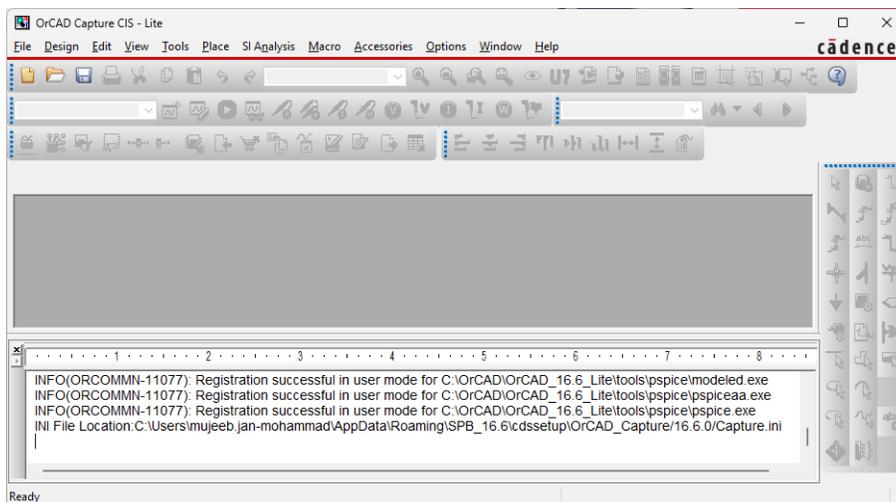

Figure 3: OrCAD loads with a blank interface.

- To create a new project, look for the “File” icon at the top left corner of the application window. Click on “File”, then “New”, and finally “Project”.
