

Students can now update gender information via self-serve digitized form

Published 6/1/2023 by [Katherine Apostolou](#)

We are excited to share that Seneca will no longer require documentation or approval for a student to change their gender information, providing students with the ability to change their listed gender immediately.

The following gender options are available:

- Female
- Male
- Non-binary
- Two-spirited
- Prefer not to answer

Students can change the gender listed on their student record using the following instructions:

- Log into [Student Home](#)
- Select the “Profile” tile
- Select the “Edit” button beside the current gender identity
- Select a gender option from the drop-down list and select “Done”

The current PDF form for gender change has been discontinued and is no longer available on MySeneca.
