

New Student Adviser support available through The Service Hub

Published 7/17/2023 by [Stephanie Conte](#)

Seneca Polytechnic has created a new personalized way to connect with your Student Adviser through [The Service Hub](#). To connect with your adviser, you will need to log into The Service Hub and select Student Advising from the navigator bar at the top of the web page. You will then have to complete the online Student Support Request form by selecting an option from a drop-down menu of categories for support. Once the form is complete, your Student Adviser or a Service Hub representative will contact you. Please note that response times may vary depending on the inquiry type.

Also, please be patient as creating multiple cases for the same inquiry will delay response times.

You can also browse through [The Service Hub's resources](#) for additional support.
