Frenz and Julia are in the Hospitality Management-Hotel & Restaurant Diploma (HTM) gaining industry experience at a restaurant in Toronto. They shared this snapshot with us to show how they are loving their work experience through the Externship program.

When they were asked, "What is the secret to achieving career satisfaction and success?" they responded:

"It's all about good career planning and aligning personal values with work attitudes. It is also important to apply the knowledge and concepts we have learned in our classes at Seneca in a hands-on experience that we gain through Externship."
