About DynaScape

Students within the Environmental Landscape Management (EVL) program require the DynaScape software package for several Year 2 courses (EVL355, EVL454, and EVL455). DynaScape is the industry-leading landscape software for professional landscapers and is a required resource for the above courses.

A remote licence for students can be purchased directly from the vendor for relevant Windows OS systems: <https://www.dynascape.com/pricing/>. Software requirements and the ordering process will be discussed in the course.

Check out MyApps for more details

MyApps is an application streaming service that lets you install software on any Seneca PC on demand or personal computer. Any software application on the MyApps menu can be used on computers in classrooms, labs, and the Computing Commons.

After signing into MyApps, you will be able to find the desired software, and click Launch to begin the streaming installation. The software will be usable within a few minutes. Please review [step-by-step instructions](#).
