Download the SenecaSAFE app to receive safety updates and more

Published 10/13/2023 by Stephanie Conte

On all Seneca Polytechnic campuses, we have additional safety measures and patrols in place, ahead of potential protests taking place today.

In the event of any protest activity or on-campus disruption a message will be sent via SenecaSAFE with additional information.

What we ask of you

Download the SenecaSAFE app as it is the most efficient way for important safety information to reach our community. Please ensure it is downloaded on your mobile devices and alerts are enabled.

Any safety concerns on campus should be brought directly to our Security Services.

The safety of Seneca students and employees is always our priority.

Thank you for your co-operation.
