

New Seneca programs to explore

Published 1/16/2024 by [Sonia Novello](#)

Seneca Polytechnic is at the forefront of innovation, introducing new program offerings for those considering embarking on their postsecondary journey, those aiming to attain a new credential and alumni interested in furthering their studies.

Explore opportunities to expand your knowledge and skills by joining upcoming webinars showcasing the following new programs set to start in September:

Occupational Therapist Assistant and Physiotherapist Assistant (OTP)

This comprehensive two-year diploma program equips you to support individuals in enhancing their physical, cognitive, emotional and developmental well-being. Through exercises, teaching adaptive techniques and monitoring progress, these professionals play a crucial role in aiding patients' recovery from injuries, surgeries and medical conditions. Join us for a [webinar](#) on Tuesday, Jan. 23, from 5 to 5:30 p.m. to learn more.

Visual Content Creation (VCC)

Building upon the fundamental principles of photography, videography, and storytelling, this dynamic two-year diploma program prepares you to become an innovative entrepreneur in industries where visual content creation is in high demand. The curriculum emphasizes communication strategies, with a strong focus on social media. Discover more about this program by attending a [webinar](#), taking place on Wednesday, Jan. 24 from 5 to 5:30 p.m.

Medical Esthetics Nursing (MDN)

Responding to the growing demand for licensed professionals in the field, this eight-month graduate certificate program is designed for Canadian registered nurses and registered practical nurses to gain the knowledge and hands-on experience required to perform medical esthetics treatments. These include laser hair removal, microneedling, anti-aging treatments, chemical peels, and cosmetic injections. Attend our [webinar](#) on Thursday, Jan. 25 from 6 to 6:30 p.m. to learn more.

Explore these and other [new programs](#) launching throughout 2024.
