Research Leader of the Year Award (2022/2023)

Ben Rogers, Dean Seneca Innovation, David Agnew, President Seneca Polytechnic, Dr. Mariam Daoud, Professor, School of Software Design & Data Science, Dean Hughes, Executive Director, Advancement & Alumni, (left to right) attended the 2023 Innovation Symposium.

This award is presented to a principal investigator faculty member who has not only made a significant contribution to applied research at Seneca Polytechnic, but who has also provided outstanding mentorship and guidance to research assistants.

Winner: Dr. Mariam Daoud

Professor, School of Software Design & Data Science

Term of project: September – December 2022

Industry partner: s2h Business Information Systems Corp.

"It was a pleasure to work with Dr. Daoud on a research project involving predictive analysis of debt recovery data. She provided exceptional guidance and I learned a lot from her. The research plan was clear and she was supportive throughout the project"
