***Prevention is as easy as 1,2,3!***

Although the campus is a safe place, it is important to know that it is open to the public during regular operating hours.

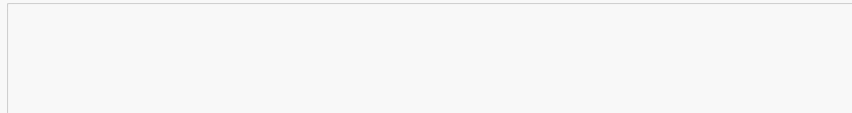

Take extra steps to safeguard your personal items because thefts are usually a crime of opportunity.

This means you have control over whether this happens to you by following the tips below.

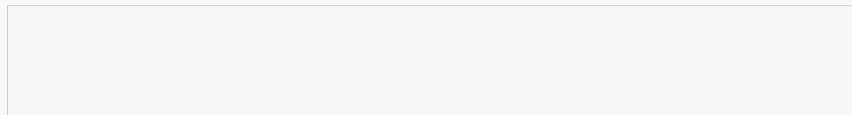

You can prevent your items from being stolen by:

- Keeping your personal belongings in your line of sight.
- Not leaving your personal belongings unattended, not even for a brief period.
- Digitally or physically tagging your items to make your items unique. It also makes it easier to identify when found!

- If you suspect you have been a victim of theft, remain calm and try to retrace your steps first. You may ask around if anyone witnessed someone moving your items. Your friends might be helping you!
- You can also check the **Lost & Found** at any security office on campus or file a report with security.
- You can report your issue online to your local police non-emergency public reporting website.
