

# Here we grow again: Upgrades, improvements and construction activities across Seneca

Published 2/10/2025 by [Sonia Novello](#)

Nothing signifies this time of year better than construction activities and upgrades across the GTA. At Seneca over the next few months, you'll notice a lot of activity as we continue upgrades to our campuses, creating spaces that best serve our community.

Visit this page often to stay updated on all the activities happening across our campuses.

## Week of Monday, Feb. 10

### Health & Wellness Centre update

Preparation for the Health & Wellness Centre construction project on Newnham Campus is moving along.

The demolition phase is nearing completion and Buildings E and F are scheduled to be disconnected. Building E will remain in use and will not be torn down.

Please note, this demolition work may be noisy and cause vibrations in the surrounding area. This stage of the project is expected to go from Monday, Feb. 10 to Friday, Feb. 21.
