

Here we grow again: Upgrades, improvements and construction activities across Seneca

Published 8 days ago by [Sonia Novello](#)

Nothing signifies this time of year better than construction activities and upgrades across the GTA. At Seneca over the next few months, you'll notice a lot of activity as we continue upgrades to our campuses, creating spaces that best serve our community.

Visit this page often to stay updated on all the activities happening across our campuses.

Week of Monday, June 17

Newnham Campus: Building D access restricted, traffic redirected – June 22

A construction crane will be in front of Building D on Saturday, June 22 from 6 to 9.30 a.m. Traffic will be redirected and access to the building will be restricted and unavailable for shipping/receiving. Please use Building A, B, C and K entrances during this time and proceed with caution if you are outside near Building D.

Markham Campus: Cafeteria closure and vehicle detour – June 22, 23

The cafeteria will be closed for electrical work on June 22, 23. The power will be shut down in the cafeteria and kitchen. In addition, there will be a generator parked in front of the building, so vehicles may need to detour through the parking lot.
