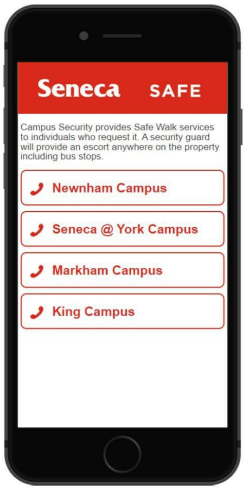
Safety Toolbox on SenecaSAFE

Your Safety Toolbox on the Seneca Safe App provides you with a quick way to access some of the important safety features all in one place!

Let's check them out:

1. Share Map with your Location
   - Here you can send your location via text or email to a trusted friend.
2. Campus Safe Walk
   - Tap on the Campus you would like a Safe Walk from and Security Will be contacted.
   - Once you have provided your location, A Security Guard will escort you anywhere on property such as Parking Lots or even Transit Stops!



3. Working Alone
   - This button activates our WorkAlone feature which has been described in detail in another article. Keep an eye out for this!
4. Share This App/Flashlight
   - With this tool you can quickly share the app with a friend.
   - You can also switch on your device flashlight without switching apps.
5. Notification History
   - Our final feature lets you see all the previous communications sent out by Seneca! This could include Weather Advisories, Power/Network Outages and all other safety notifications.

Things to remember:

- If this is an emergency, call 911 directly or through the app under the Emergency Contacts section. Contact Campus Security when safe to do so.
- You can always report an incident or speak to Security in person. Here is a list of our offices:
  - Newnham Campus B2000
  - King Campus Garriock Hall 2nd Floor Main Entrance
  - Seneca@York SEQ Building 1st floor Welcome Desk
  - SIA Campus 1st floor Main Entrance
  - Peterborough Campus 1st floor Main Entrance

Emergency HelpLine: 416-764-0911 or Microsoft Teams ext.88

Main Security Dispatch: 416-764-0911
