

Learn@Seneca – Course Content Enhancement

Published 28 days ago by [Anna Dorbyk](#)

With the September 3900.100 Learn Release, Learn@Seneca will be introducing updates to the course content page. These changes primarily affect the look and feel of Ultra courses with no expected noticeable impact on functionality. We anticipate this release will be applied to our system this evening or by Friday, September 6th.

The new design incorporates:

- Subtle gradients and softer edges
- A more cohesive color palette with inviting, warmer tones
- More intuitive navigation, which reduces cognitive load and increases focus on the content
