

Coming soon: Your Seneca OneCard will be supported by Apple Wallet

Published 22 days ago by [Ran Luo](#)

Seneca Polytechnic students will soon be able to add Seneca's [Virtual OneCard](#) to Apple Wallet on their iPhone or Apple Watch.

Setup is quick and easy plus OneCard in Apple Wallet takes full advantage of the privacy and security features built into iPhone and Apple Watch. They are stored on the device, which means Apple doesn't see the services and places you access, so data is private and secure. And if a user misplaces their iPhone or Apple Watch, they can use the Find My app to lock and help locate their device.

Your OneCard allows you access to a variety of [services and facilities on campus](#), including entry to the Campus Shuttle and paying for services offered by the Computing Commons and Seneca Libraries. You can also use the funds on your OneCard for purchases from the Seneca Dining Services, the Campus Store and more.

[Learn more](#) about OneCard here.
