Classroom support

Version 3

Published 10/5/2021 by Jennifer Kim   Last updated 11/24/2023 7:11 PM by Truc Chau

Information Technology Services supports a number of learning environments for students and employees:

- Electronic Classrooms
- Computer Labs
- Computing Commons

We also provide support for audio/visual equipment (projectors, laptops, cameras, etc.) to assist our community with required academic/business projects and assignments.

Electronic classrooms

Electronic classrooms are equipped with audio/visual and computer equipment for instructional purposes. Each room has a podium, a ceiling-mounted data projector and audio system with a full-featured computer.

Computer labs

Computer labs are used to facilitate computer-based learning classes. Each lab is unique to the campus or program, however, high-speed Internet access and printing is available.

Computing commons

The Computing Commons is an open area where computers are available for students and employees access. The workstations feature up-to-date hardware and software. Printing services are available for every workstation.
