Looking for a space to connect with other like-minded Seneca students while you study? Did you know that studying alongside others can improve your own concentration and study performance?

Join us in our Learning Centre spaces during our designated Study Hall hours. You may join or leave at any point during a Study Hall. Just bring your homework and class materials with you. We provide the space, time, and can answer questions or provide helpful study tips to help you get things done. While the Study Hall will be facilitated by Learning Centre staff, the direction of the group will be decided by the students who join.
