Information Technology Services supports a number of learning environments and we are very excited with the opening of the Centre for Innovation, Technology & Entrepreneurship (CITE) Building at Newnham Campus. ITS is working on a number of initiatives to provide supports related to the technology inside the electronic classrooms.

- Training
- Quick “how-to” videos
- Tipsheets

The CITE e-classrooms have been equipped with some new technology to enhance the existing e-classroom experience that you currently receive at Newnham and other campuses.

The e-classrooms have the following technologies added:

- AODA podiums – these podiums can be adjusted for height with a push of a button
- Touch screen monitor – these are installed on the podium providing interactivity like a tablet
- Short Throw Laser Interactive Projectors – projected content that allows for interactivity like a tablet
- Ink2Go software – allows you to annotate on the touch screen monitor or on the projected image on the whiteboard
