

Taking action on violence against women

Published 28 days ago by [Jasmeen Chandi](#)

December 6 is the National Day of Remembrance and Action on Violence Against Women. This day marks the anniversary of the tragic École Polytechnique massacre in Montreal in 1989, where 14 women were murdered in a targeted act of violent misogyny. This horrific incident shocked the nation and, 35 years later, continues to highlight the pervasive issue of gender-based violence.

Recognizing that gender-based violence is a critical issue that affects the Seneca Polytechnic community and beyond, this day is a time to reaffirm our efforts for prevention and education. Join the Seneca community this December 6 to come together in our shared commitments to fight misogyny and build a future without violence.
