

Bring your creative vision to life with Sandbox studios

Published 18 days ago by [Megan DeLaire](#)

Lights. Camera. Action.

As a Seneca Polytechnic student, you have access to the equipment you need to fulfil your audio recording, photography, videography, digital presentation and 3D printing needs through the [Seneca Sandbox](#).

With [locations at](#) King, Newnham and Seneca@York campuses, the Sandbox is a digital media hub designed to help you expand your production skills:

- Book a session at one of our production or recording studios
- Choose from a selection of video and DSLR cameras, studio lighting, backdrops, green screens, dynamic and condenser microphones, audio interfaces, synthesizers and more
- Block off time with a 3D printer or scanner

In addition to the space and equipment you need, the Sandbox also has on-site staff and a library of digital tutorials to help guide you as you bring your vision to life.

Sandbox equipment can only be used within the studios. Book your session [online](#) today.
