Students can book the following Counselling Services Appointments through self directed online portal:

Quick Connect: A Quick Connect is a part of the One-At-A-Time Therapy (OAATT) framework that provides a single session designed to help you address a specific issue and move forward. The session is structured to help you feel unstuck, leaving you with a clear, actionable plan. While one session may be sufficient, additional support is available. We can help connect you with other campus and community resources as part of your plan, or you can book another Quick Connect session as needed.

Intake Appointment: Brief Counselling offers short-term, focused therapy for a number of challenges that could include adjustment and transitions, anxiety, depression, self-esteem, relationship and family concerns, body image and eating issues, as well as sexual orientation and gender identity.

Follow-up Appointment: The follow-up appointment is a part of the Brief Counselling framework offering continued support on challenges you have disclosed to your assigned Personal Counsellor. *Assigned Personal Counsellor: the counsellor you completed your intake appointment with and choose to continue services with.
