Password rules for students effective Monday, March 17

Published 3/17/2025 by Ran Luo

To protect Seneca Polytechnic from an ever-increasing number of cybersecurity threats, we are re-enforcing periodic password changes starting Monday, March 17.

Strong and unique passwords, combined with multi-factor authentication (MFA), are crucial for safeguarding Seneca and your information. You may refer to the updated password rules here.

You will be prompted to update your password upon your next log in to comply with the new rules. The prompting will be implemented gradually with 5,000 students per week.

It takes all of us

Since cybersecurity is a shared responsibility, we thank you for doing your part in keeping Seneca secure. By adhering to these updated guidelines, you help reduce the risk of data breaches, phishing attacks and other cyber threats that could negatively impact your student experience at Seneca and much more.

If you have any question or concern, please do not hesitate to contact the Service Desk, available to support you 24-7.
