

# Setting Location-Based Parking Reminders

Version 4

Published 4/8/2025 by [Adam Chisholm](#) Last updated 4/8/2025 1:58 PM by [Adam Chisholm](#)

If you find it difficult to remember to pay for parking when you get to campus, we recommend setting a location-based reminder on your phone. Here are instructions to set these reminders for iPhone and Android. You may see slight differences based on your phone model and software.

## iPhone

1. Open the Reminders App: Launch the Reminders app on your iPhone.
2. Create a New Reminder: Tap the "+" button to create a new reminder.
3. Tap the "Location" button.
4. Tap "Custom" to add your campus eg. "1750 Finch ave e" or "13990 dufferin st".
5. Choose "arriving" and adjust the perimeter of the reminder area if you wish.
6. Tap the "Date & Time" button to set a date range for the reminder. The start date can be today and the end date should be as long as you expect to be at Seneca.
7. Tap the "i" next to the reminder to access the details.
8. Tap "Repeat" and choose "daily"
7. Tap "Done" to save the reminder.

You will get a reminder on your phone every day you arrive on campus.

## Android

1. Launch the Reminder app
2. Create a new reminder: Tap the "+" button to create a new reminder.
3. Add title like "Reminder to pay for parking"
4. Tap "Place"
5. Tap "pick a place"
6. Enter the address of your campus eg. "1750 Finch ave e" or "13990 Dufferin St"
7. Below the address it will say "Time: Anytime". Below that select "Don't repeat" and change to "Every time"
8. Ensure "When I arrive at" is selected
9. Select "Save".
