

# Haas Certification

Version 9

Published 5/7/2025 by **Ankur Patel** Last updated 7/9/2025 3:13 PM by **Ankur Patel**

Haas Automation is the largest machine tool builder in the United States and one of the largest builders of CNC machines in the world. Haas manufactures a complete line of CNC vertical machining centers, horizontal machining centers, turning centers, 5-axis machining centers, and rotary products, as well as a wide selection of fully integrated automation solutions, including automatic parts loaders, pallet-pool systems, and 6-axis robot systems.

For this reason, Haas has developed a Haas CNC Certification Program, which includes Mill and Lathe Operator certification. The exam is divided into two parts, online courses and hands-on test. Details are below:

**The online courses are designed to provide the basic knowledge necessary to get started as a CNC machine operator or CNC machinist. They offer an introduction to basic CNC machine operation, proper machine safety, and fundamental machining processes. After the online course is completed, a hands-on test is required to obtain your Certificate.**

## Who can apply for the certification hands-on test?

All Seneca students who successfully passed the following courses:

For the Mill and Lathe Operator certificate hands-on test, one must pass below course:

- CNC401

For the Mill Operator certificate hands-on test, one must pass below course:

- CNC555

## What is the cost of the certification hands-on test?

The cost is \$50 CAD for each hands-on test for the Mill and Lathe Operator certificate. The fees must be paid to Seneca Polytechnic before the hands-on test.

## How can I register for the certification hands-on test?

- **Please fill out this form:** <https://forms.office.com/r/jszpoggGFz>
- **Exam Date:** Tentatively:
- **Test time:** Once registered, a separate link will be shared with available time slots to book
- **Registration period:** TBA
