

Hackathon 2025-Post Event

Published 5/22/2025 by [Mary-Jo Sallu](#)

We are proud to announce **MVP Makers** as the *Food Sustainability & Hackathon Grand* winners! Their innovative project stood out for its creativity, feasibility, and impact on sustainability challenges.

Congratulations to MVP Makers for their dedication and groundbreaking achievement—we can't wait to see the positive change their work will bring!

Challenge Set Winners

Team Canada AI took home the win in the *"Innovative Retail"* category, impressing judges with their forward-thinking approach to transforming retail experiences.

In the *"Food Insecurity and Charitable Support"* challenge, **Snack-Overflow** emerged victorious, delivering an innovative solution to address food insecurity and enhance charitable outreach.

Team ControlC+ControlV won the *"Nutrition Wellness and Consumer Education"* category with their creative approach to promoting healthy lifestyles and nutrition awareness.

Finally, **Team K2013** triumphed in the *"Food Safety, Traceability, and Transparency"* challenge, introducing a cutting-edge system to improve food safety and traceability throughout the supply chain.
