Cyber Café Student Security Talks

🗄 **Date & Time:** Tuesday, November 25, 2025, at 4:30 PM

🗄 **Location:** Room K1271

🗄 **Bonus:** Pizza will be served!

🗄 **Talk 1: Securing FinTech AI**

Speaker: **Guy Levin**

AI helps make credit decisions, detect fraud, and support analysts in modern finance. But these systems also bring new security risks. Guy will connect these risks to our applied research project with Locate Alpha, where we are building real AI systems that work with financial data. Learn how attackers can target FinTech AI, how defenders can respond, and how our collaboration is tackling these challenges in practice.

🗄 **Talk 2: Cybersecurity horror show: Network card security**

Speaker: **Deven Boutin Lacelle**

Deven will show practical "theoretical" attacks on network cards and explain why they matter. Expect a technical, eye-opening session!
