

You are invited to the 2026 Green Citizen Symposium

Published 24 days ago by [Ran Luo](#)

Join the movement for climate action to be part of the [2026 Green Citizen Symposium](#), a dynamic two-day online event from Tuesday, March 17 to Wednesday, March 18.

Explore this year's theme, "Bridges to Resilience: Connecting People, Ideas and Solutions", which focuses on empowering individuals and communities to adapt and flourish amidst ecological changes. Check out any (or all) of the four sessions — each comprised of a keynote and a complementary workshop — centred around the theme, featuring special guests and experts in sustainability.

Gain insights and inspirations from our diverse group of panellists and speakers, who will share their respective journeys in turning everyday ideas into climate action.

Connect with peers and community members at the [in-person sustainability networking event](#) for meaningful conversations and ideas.

Reserve your spot early (attendance is free and open to all members of our Seneca Polytechnic community), as space is limited.
