Full fees (tuition, student council, student activity, student building, student services and technology fees) are payable on an academic year basis.

[Review list of important academic dates](#)

Fees must be paid according to the schedule in order to reserve your place in class and to avoid payment of late fees. Late fees will be levied if payment is accepted by the College after the due dates.

New students who do not pay fees will have their place in class cancelled automatically and without further notice. Students whose fees are received by the College after the specified date will be placed on a Waiting List, pending availability of space in the program.

Returning students who do not pay full fees by the date specified will be charged the applicable late fees. Timetables will not be released to students who have not paid fees.

Seneca College transcripts and certificates/diplomas will be withheld for all students until outstanding fees/fines have been paid.
