

Lesson 18: Musculoskeletal System

Version 3

Published 11/12/2021 by [Gerald Encabo](#) Last updated 12/8/2021 5:58 PM by [Sonia Novello](#)

Types of Skeletal Systems

Skeletal structure and function

Axial and Appendicular Skeleton

Axial Skeleton

Appendicular Skeleton

Bone Structure and Function

Bone Tissue and Skeletal System

Cartilage

Skeletal System Disorders

Muscle Contraction - Sliding Filament Mode

The Muscular System

Myosin and actin filaments

How tropomyosin and troponin regulate muscle contraction

Sarcoplasmic reticulum in muscle cells

Skeletal muscle fibers

Types of Joints

Anatomy and Physiology: Ch. 09 - Joints

Ligaments, tendons, and joints

Musculoskeletal System Disorders

The Musculoskeletal System

Bone Tissue and Skeletal System

Axial Skeleton

Appendicular Skeleton

Joints

Muscle Tissue

The Muscular System

The Musculoskeletal System explained

Muscles

Biology: Skeletal System

Biology: Muscular System

Anatomy: Bones Part 1 - The Skeletal System

Anatomy: Bones Part 2 - Joints

Anatomy: Muscles Part 1 - Muscle Cells

Anatomy: Muscles Part 2 - Organism Level
