

"The Seneca BES courses gave me opportunity"

Published 11/15/2021 by [Amy Koning](#)

Being part of continuing education is something easily manageable for those who are working full time and wants to move up the ladder. Seneca BES course gave me the opportunity to educate myself and I was able to get a job related to my field in Johnson Controls while doing this course. As an immigrant, it's hard to find a stepping stone in Canadian competitive job market and this fast track course can make your dreams come true. With engineering mindset and experience back home, I was able to finish this course easily. If you are someone reading this and in the same boat that I was, then this program is for you and it will definitely help you get into a successful rewarding career. SM
