

Seneca StingDome damaged

Published 1/19/2022 by [Kelly Mathews](#)

In the early hours of Wednesday, Jan. 19, the Seneca StingDome collapsed due to the excessive snow load. There were no injuries.

The perimeter around the dome has been secured. Please avoid the area in and around Building G (Sport Centre) and the StingDome while the damage is being assessed.

No activities were scheduled due to COVID-19 protocols.
