

Eligibility

Version 30

Published 2/14/2022 by [Gerald Encabo](#) Last updated 4/1/2025 1:47 PM by [Danielle Totino](#)

Grade requirements:

Certificate, diploma and graduate certificate programs — a minimum grade of “C” (60 per cent) is required for a course to be considered for transfer credit for *most* programs.

Degree programs — a minimum grade of “C+” (65 per cent) in a degree level course is required for a course to be considered for transfer credit for *most* programs.

A higher minimum grade may be required by certain programs.

Course equivalency:

Incoming courses are evaluated based on applicability to Seneca’s programs of study and on criteria related to content, learning outcomes, credit value and/or number of teaching hours. If required, and applicable, to the program of study, incoming courses will also be required to include practical and/or lab components.

Seneca reserves the right to limit the time for which a course is considered current and eligible for transfer credit. Such eligibility is determined by each faculty/program. For more details, refer to [“Appendix B: Guidelines for Use in Making Life of a Credit Decisions” in the Transfer Credit Policy](#).

Programs in the **Faculty of Applied Science & Engineering Technology** require current knowledge and as such some incoming course(s) that are more than five years old may not be granted transfer credit.

Program specific policy:

Some programs have additional policy requirements that restrict or limit transfer credit. These may include programs that must follow a set of standards outlined by an accreditation body in order to deliver a specific credential or certification.

Biological Sciences and Applied Chemistry programs: transfer credit will not be granted

towards SSA 001 in programs from the School of Biological Sciences and Applied Chemistry

Early Childhood Education and Child Development programs: courses completed more than 10 years ago are ineligible for transfer credit toward core program requirements. Transfer credit may still be requested for Communication, Psychology, and General Education/Liberal Studies courses if the relevant course exceeds the 10-year threshold.

Nursing degree programs (including bridging and fast track): transfer credit requests can be made for liberal studies options, English or psychology courses; transfer credit will not be granted for core courses in nursing degree programs

Nursing degree (bridging) program: transfer credits, based on courses completed in a two-year Practical Nursing diploma program from an Ontario college, will not be granted for any courses in the nursing degree (bridging) program.

Nursing graduate certificate programs: transfer credit will not be granted for any courses in nursing graduate certificate programs

Practical nursing programs: transfer credit requests can be made for general education, communications or psychology courses; transfer credit will not be granted for core courses in practical nursing programs

Opticianry program: transfer credit requests for core courses can be made for courses successfully completed in a [Accreditation Canada Accredited Optician Program](#) taken at a Canadian College of Applied Arts and Technology

Paralegal programs: transfer credit requests for core courses can be made for courses successfully completed in a [Law Society of Ontario accredited paralegal education program](#) taken at an Ontario college of applied arts and technology (transfer credits can only be granted for a maximum of 40% of total courses)

Personal support worker programs: transfer credit requests can be made for the required communications course; transfer credit will not be granted for core courses in the personal support worker programs

Professional Accounting Practice graduate certificate program: transfer credit requests must include a Chartered Professional Accountants (CPA) assessment of the previous education along with the official transcript from the previous institution and, if applicable, additional documentation such as course outlines; a minimum grade of 65%/C+ is required for transfer credit into this program

Public Relations - Corporate Communications program: transfer credits will not be granted towards CCM701 or CCM702 in the Public Relations - Corporate Communications program

Technical Communication program: transfer credit will not be granted for any course in the Technical Communication graduate certificate program

Therapeutic Recreation degree program: transfer credits will not be granted towards RSC 875 and RSC 885 in the Therapeutic Recreation degree program

Work term preparation courses: transfer credit will not be granted for WTP100 or WTP200
