

# Kyle Rose

Published 2/18/2022 by [Stephanie Conte](#)

Kyle Rose is the Vice-president, Business Development, CyberAI Corporation and a Seneca HELIX Entrepreneur. CyberAI Corporation is a venture that is developing the innovative tool ScamBox Plus, a multi-layered security browser that protects valuable data and information against digital fraud and phishing emails. Innovation-oriented and a dedicated professional, Mr. Rose cites Daniel Steward, founder and chairman of the World Wide Technology Inc., as a personal inspiration because Mr. Steward is also a member of the Black community who's successful in business and technology.
