New Seneca OneCard app now available

Published 6/13/2022 by Stephanie Conte

A customized app for the Seneca OneCard is now available and can be downloaded to your Apple or Android device.

The new Seneca OneCard app is replacing the GotMyCard app, currently used to access the virtual Seneca OneCard.

Students and employees who have downloaded their OneCard using the GotMyCard app must delete this app and install the new Seneca OneCard app by Thursday, June 30. The GotMyCard app will not be supported as of Friday, July 1.

Any funds and/or information stored on your current virtual OneCard will be automatically transferred to the new Seneca OneCard once you install the Seneca OneCard app.

Information on how to install the new Seneca OneCard app is available online.

Please note: if you have already downloaded the new Seneca OneCard app, no action is required.
