Pictured from left: Fabio Costa, Senior Lab Technologist, School of Electronics & Mechanical Engineering Technology; Seneca students Matin Zalpour, Kian Hassan Tehrani and Mark Macario; Ankur Patel, Lab Technologist, School of Electronics & Mechanical Engineering Technology; Karen Craigs, Professor, School of Electronics & Mechanical Engineering Technology, and Seneca student Maxim Gontcharenko

We are #SenecaProud of students from Seneca's School of Electronics & Mechanical Engineering Technology who represented Ontario during the annual [Skills Canada National Competition](#).

During the event, Mark Macario, student in the Mechanical Engineering Technology – Industrial Design advanced diploma program won a gold medal in the precision machining category. Silver medals were awarded to Electromechanical Engineering Technology – Automation advanced diploma program students, Matin Zalpour and Kian Hassan Tehrani, in the mechatronics category and Maxim Gontcharenko from the Electronics Engineering Technology advanced diploma in the electronics category.
