

Digital screens wrapped with more information

Published 6/14/2022 by [Stephanie Conte](#)

Seneca's on-campus digital information screens now include additional content to help students and employees stay informed and plan their days.

Along with details about on-campus safety protocols, reminders and events, each screen now includes up-to-date weather information news headlines and a clock.

Coming soon, screens close to the transit stops at each campus will include arrival times for TTC and York Region Transit buses.
