Tips for a successful start at Seneca

Published 9/7/2022 by Kelly Mathews

As you embark on the first week of your studies at Seneca, we want to remind you of a few important things that will help you on your journey:

There's an app for that!

Whether you're on the go or on campus, Seneca has an app to support you.

All students need to download the Seneca SAFE app and the virtual Seneca OneCard. The OneCard is your official Seneca identification card. Use it for Meal Plans, purchases on campus, parking plans, photocopying, printing and at Seneca libraries. You will upload your proof of vaccination to the Seneca SAFE app for verification and approval.

Seneca NAVIGATE: not sure where to go? Find classrooms, study spaces, food services and washrooms easily thanks to detailed maps of Newnham and Seneca@York campuses. You can download Seneca NAVIGATE on Google Play or from the Apple App Store.

Seneca also offers the **Seneca MOBILE app** which links directly to the Blackboard App for MySeneca access. You can download Download Seneca MOBILE on Google Play or from the Apple App Store.

Download the full suite of Seneca apps today!

Hungry?

From Starbucks and Tim Horton's to the Seneca cafeteria's, find out what's open at each campus. More information is available on Dining Services including online ordering.

Where are my classes?

Are you coming to campus, but don't know what room your classes are in? All you have to do is log into Student Home and select "My Classes".

Stay safe on campus!

All students coming to campus need to be aware of the on-campus safety protocols and mask requirements. For up-to-date COVID-19 information including vaccination information

and important student FAQs, please visit Seneca's COVID-19 website.

Cashless Seneca!

All of Seneca's services are accepting at least one form of cashless payment, which includes Seneca's virtual OneCard, debit card and/or credit card. Payment methods may vary by service area and are subject to change.
