The School of ITAS offers one Diploma program, Computer Systems Technician (CSN). This two-year Computer Systems Technician diploma program offers you the skills and knowledge needed to meet the challenges of the ever-changing field of information technology administration. In Seneca's modern labs, you will enhance your abilities by completing practical, hands-on training in networking, operating systems, security and cloud computing. This program also offers an optional work term for students that meet the requirements to be enrolled within it.
