The School of ITAS offers four different Graduate Certificate programs that are 2 academic semesters long, Business Information Technology (BTT), Cloud Architecture and Administration (CAA), Cybersecurity and Threat Management (CYT), and Project Management: Information Technology (PMC). These Certificate programs offer you the skills and knowledge needed to meet the challenges of the ever-changing field of information technology administration. They are each designed to strengthen your knowledge and skills of each of their respective segments within the field of Information Technology and Administration. These programs also offers an optional work term for students that meet the requirements to be enrolled within it.

- **BTT - Business Information Technology**
- **CAA - Cloud Architecture & Administration**
- **CYT - Cybersecurity and Threat Management**
- **PMC - Project Management: Information Technology**
