

Ontario Skills Competition

Version 2

Published 10/13/2022 by [Dylan Manley](#) Last updated 10/14/2022 3:28 PM by [Dylan Manley](#)

The Ontario Skills Competition allows students of different faculties to participate and test their skills in a vigorous competition amongst students of other institutions with the possibility of being awarded with scholarships, bursaries, job offers and other prizes. The Skills Ontario Competition brings to life an exciting experience for students to display their skills and talents in their respective field. Over a two and a half day event, they showcase their skills across the Province facing off against many other institutions for the chance at receiving a medal. Winners are awarded with Gold, Silver or Bronze medals with some monetary value, while also granted the opportunity to compete at the Skills Canada National Competition. From there, winners of that competition could be headed to a World Skills Competition to face off with competitors on a global-scale.

If this opportunity calls to you, please reference their [homepage](#), and speak with [Mehdi Akbari](#) about how you can get involved.
