The bear teaches us to have courage by showing us that we can stand up for ourselves and for others, even when we feel weak or afraid. Bear also teaches us about the importance of healing. When we learn from Bear's example, we learn to dedicate our hearts to living with integrity.

For Bear's depiction, we chose a wider variety of programs such as early childhood education, health sciences, public safety and animal health. In this way we wanted to show not only the vastness of the size of the Bear clan, but also of Bear's teachings and applicability.
