

New phone number for Seneca Security

Published 10/18/2022 by [Stephanie Conte](#)

Effective immediately, there is just one, Seneca-wide, 10-digit phone number to reach [Security & Emergency Management Services](#).

That number is 416.764.0911, and it can be dialed through MS Teams, a landline or a mobile device.

Please add this number to the contact lists on your digital devices for easy access in the event of an emergency or if you need to contact Security & Emergency Management Services at any campus.

Seneca is no longer using 416.491.5050 ext. 88 or any of the previous campus-specific Security extensions (e.g., 22565, 33565, 44565, 55265 or 77565). All references to these extensions should be removed from work spaces and contact lists immediately as they are no longer in service.

The Mobile Blue Light system via the [Seneca SAFE app](#) and the on-campus emergency phone system remain in place for immediate connection to Security.

A reminder that you can always dial 911 to reach police, fire or emergency medical services.

If you have any questions, email Seneca.Security@senecacollege.ca.
