

Seneca teams up with skincare brand to create Canadian-sourced products

Published 12/8/2022 by [Stephanie Conte](#)

James Lewis, Project Co-ordinator, Céla, Cindy Yuen, Operations, Céla, Sonal Kamath, Professor, School of Biological Sciences & Applied Chemistry, Sharon Robertson, Professor, School of Biological Sciences & Applied Chemistry, Celine Tadrissi, Founder, Céla, Paola Battiston, Chair, School of Biological Sciences & Applied Chemistry, Ira Sherr, Manager, Centre for Innovation, Dr. Frank Merante, Professor, School of Biological Sciences & Applied Chemistry.

Your next spa treatment could include a facial with bespoke, made in Canada products, thanks to a collaboration between Seneca and Toronto-based luxury skincare line Céla.

Students from the [School of Biological Sciences & Applied Chemistry](#) (BSAC) helped come up with the unique formulas for Céla's anti-aging facial oil and moisturizer as part of applied research projects conducted through the [Seneca Centre for Innovation in Life Sciences](#) (SCILS).
